

JAMAICAN ORGANICS

LEAF GUARD

LIQUID CONCENTRATE

INSECTICIDAL SOAP CROP PROTECTANT

A natural multi-purpose crop protectant used to control a variety of pests. Regular applications create an environment that is hostile to pests and fungal spores, but not to plants or beneficial pollinators when used as directed. Leaf Guard also acts as a wetting agent to improve the adhesion, spreading, and penetration of other herbicides, pesticides, and nutrient foliar sprays.

ENVIRONMENTAL IMPACT

100% biodegradable. Non-toxic to birds, fish, and bees. Hazardous to aquatic invertebrates. Do not apply directly to water bodies. Do not contaminate ponds, waterways, and ditches by disposal of wash waters.

CAUTIONS & FIRST AID

Use only as directed. Do not mix with strong acids or bases. Do not use on nasturtiums, sweet peas and delicate ferns. Take care on seedlings, transplants, and flowers. Always test for phytotoxicity on a small area first. Avoid spraying plants already stressed from heat (30°C) or moisture deficiency. Rehydrate plants for 3 days before applying.

Do not consume. May cause temporary irritation of the skin and eyes. Use gloves and goggles to avoid contact. Wear a mask when spraying to avoid inhalation. No re-entry restrictions.

IF SWALLOWED, rinse mouth out with water for 15 minutes. Do not induce vomiting. Consult a doctor to treat symptoms.

IF IN EYES, flush from eyes with plenty of water for 15 minutes. Remove contact lenses if present and continue flushing. Consult a doctor if needed.

IF ON SKIN, wash with soap & water.

IF INHALED, move to fresh air. Consult a doctor if needed.

NET CONTENTS 1 LITER

LEAF GUARD

INSECTICIDAL SOAP
CROP PROTECTANT

BENEFITS

- HELPS PREVENT INFESTATION
- KILLS BY CONTACT & INGESTION
- REDUCES NEED FOR PESTICIDE
- ENSURES BETTER COVERAGE
- ASSISTS DELIVERY OF NUTRIENTS
- NO RESIDUES - 100% BIODEGRADABLE
- FOR ADULT, NYMPH, AND LARVAL STAGES

INSTRUCTIONS

Do not shake. Stir to mix gently. Mix only what you need for one application at a time. Do not store in diluted form.

TO PREVENT

Mix 6-10 ml with 1 liter of water and mix gently. Apply every 7-10 days. Spray all plant surfaces.

For larger areas, mix 0.6-1 L with 100 L of water per acre.

TO TREAT

Mix 10-30 ml with 1 liter of water and mix gently. Apply as soon as possible. Repeat every other day until pests are eliminated.

For larger areas, mix 1-3 L with 100 L of water per acre.

Once pests are eliminated, continue to spray every 7-10 days to prevent reinfestation.

No warranty is expressed nor implied. Timing and method of application, weather, watering practices, nature of soil, insects and other influencing factors are beyond the seller's control. Buyer assumes all risk of use, storage and handling not in accordance with manufacturer's instructions.

PESTS COVERED

- POWDERY MILDEW
- RUST
- SOOTY MOLD
- PESTMITES
- THRIPS
- WHITEFLIES
- SCALE (SOFT)
